

CERTIFICATE

Issued to:

Test period:

16th-18th November 2022; Retest 5th May 2023

Object of Investigation:

Webapplication <https://develop.digital-circles.com/>

Methods used:

Grey Box Penetrationtest

- Information Gathering
- Portscan and OS-Fingerprinting
- Vulnerability scan
- Direct attacks on selected systems
- OWASP TOP 10

Result:

Due to the given time frame, it was not possible to address the individual topics on application security in great detail. Therefore, it cannot be ruled out that the application may have additional previously unknown security vulnerabilities that may require increased effort to exploit. The resolution of the previously identified weaknesses was confirmed in a retest.
